TPMS Master Tool Kit

The Master Tool Kit is suitable for all torques of the currently available screwed connections in tire pressure monitoring systems. With this tool kit any installation and service operations on all current TPM systems can be performed.

Your advantages at a glance:

- ✓ The calibrated torque drivers cover all known tightening torques
- ✓ Correct tightening torques guarantee an ideal valve seal
- ✓ Easy manual adjustment of the needed torque
- ✓ Rapid bit changing through the use of sophisticated technology
- ✓ Quick assembly through single-hand operation

Article-No.
232426
